

EZGo 444 MARATHON UTILITY BOX INSTALLATION INSTRUCTIONS

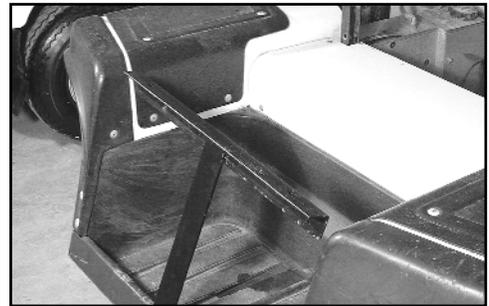

- 1) Remove sweater basket.
- 2) Cut bag rack/sweater assembly at 90-degree bend as close to the seats as possible.
- 3) Loosely install the “T” bar with one (1) 10mm x 25mm bolt through bumper.
- 4) Mount box centered on rear fenders and “T” bracket. Align “T” bracket vertically. Drill two (2) holes into box through “T” bracket and two (2) holes through box into each fender. Six (6) holes total.

Mount using 8mm x 30mm bolts. Use large fender washers under fender.

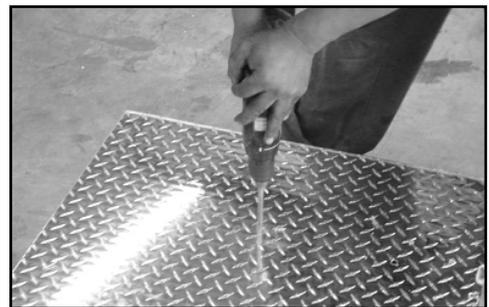

- 5) Fabricate top struts using existing top struts, turning 90 degrees and drilling holes through box.
- 6) Install chain using 6mm x 25mm bolts through holes in box by tailgate.
